

# Ranch Sorting Practices and Buckle Series

Held at The Square MC Arena home of Performance Horses by Marc Chancey  
*Please email or call Marc for the weekly practice schedule and competitions.*

## Details

Ranch sorting is a simulation of stockyard sorting. This type of event helps the rider develop better horsemanship skills and communication with their horse. This sport offers the opportunity for less stressful competitions while enjoying comradery with other horseman and developing better sportsmanship.

Ranch sorting is an event that includes ten head of cattle, which are numbered from 0 to 9. The cattle are held in one pen, which is connected to another pen of equal size. A two man team must sort and move cattle from one pen to the other in sequential order without a cow crossing into the other pen out of order. The goal is to move as many cattle as a team can within a 90 second period. This sport is for any rider skill level and different divisions are offered: youth, beginner to advanced.
